PROFILE

Software engineering student with a strong focus on frontend development. I enjoy building clean, responsive web interfaces and turning ideas into functional products using modern JavaScript frameworks. Currently strengthening my skills through hands-on projects and real-world practice.

EDUCATION

NIIT — Diploma in Software Engineering *(In Progress)*

2023 — Present

Lorem ipsum dolor sit amet, consectetuer adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore.

SKILLS

Frontend: React, JavaScript (ES6+), Tailwind CSS.

Backend (Basics): Python, FastAPI, REST APIs.

Tools: Git, GitHub, GitHub Actions.

Other: Responsive design, component-based architecture.

PROJECTS

PanelVerse — Manga Reader Web App

React, Tailwind CSS, REST APIs

Built a manga reader web application with search, browse, and library features

Integrated external APIs to fetch and display real content

Designed a clean UI with animations and responsive layouts

Focused on reusable components and readable code structure.

Currently Learning

Advanced React patterns
UI animations & interactions
Improving backend integration and app architecture.

LANGUAGES

English.
